The Company and China Telecom entered into six continuing connected transactions agreements on 16 November 2006 to manage the continuing connected transactions between the Group and China Telecom Group. These agreements include Engineering Framework Agreement, Ancillary Telecommunications Services Framework Agreement, Operation Support Services Framework Agreement, IT Application Services Framework Agreement, Property Leasing Framework Agreement and Centralized Services Agreement. Each of these agreements had an initial term expiring on 31 December 2008 and, subject to approval from the shareholders (if applicable), the aforementioned six amended continuing connected transactions agreements would be automatically renewed for a further period of not more than three years each time, unless terminated by either party by giving a written notice three months in advance.

The Company announced on 15 June 2007, and completed on 31 August 2007, its acquisition of China Telecom's specialized telecommunications support business ("Target Business") located in 13 provinces (municipalities and autonomous regions). In connection with the acquisition of the Target Business, a supplemental agreement in respect of the aforementioned six continuing connected transactions agreements was entered into between the Company and China Telecom on 15 June 2007 (the "2007 Supplemental Agreement"). The 2007 Supplemental Agreement extended the validity period of the six continuing connected transactions agreements to 31 December 2009, and extended the coverage of those agreements to 19 provinces (municipalities and autonomous regions), being the Group's primary service regions immediately after the completion of the acquisition of the Target Business. On 19 September 2008, the Company entered into a supplementary agreement with China Telecom in respect of the aforementioned six agreements (the "2008 Supplementary Agreement") and extended the term of the six continuing connected transactions agreements to 31 December 2010. On 29 October 2009, the Company entered into a Supplies Procurement Service Framework Agreement with China Telecom effective from 1 January 2009 to 31 December 2010. On 9 November 2010, the Company entered into another supplemental agreement with China Telecom in respect of the aforementioned seven agreements (the "2010 Supplementary Agreement") and extended the term of the seven continuing connected transactions agreements to 31 December 2012 with other terms unchanged. On 20 September 2012, the Company entered into another supplemental agreement with China Telecom in respect of the aforementioned seven agreements (the "2012 Supplementary Agreement") and extended the term of the seven continuing connected transactions agreements to 31 December 2015 with other terms generally remained unchanged.

Subject to approval from the shareholders (if applicable), the aforementioned seven amended continuing connected transactions agreements will be automatically renewed for a further period of not more than three years each time, unless terminated by either party by giving a written notice three months in advance. In connection with the entry of the 2012 Supplementary Agreement, the Company also set new annual caps for the three years ending 31 December 2015 in respect of the transactions contemplated under the seven continuing connected transactions agreements (see table above). The 2012 Supplementary Agreement and the new annual caps (excluding the new annual caps for the Property Leasing Framework Agreement and Centralized Services Agreement that did not require any independent shareholders approval under the Listing Rules) were approved by the independent shareholders of the Company at the extraordinary general meeting held on 27 November 2012.

The Company announced on 14 November 2011 to propose the increase of annual caps for service charges payable to China Telecom Group under the Supplies Procurement Services Framework Agreement to RMB2,100 million and RMB2,600 million respectively, for the two years ended 31 December 2011 and 2012. Details of above revised annual caps for the Supplies Procurement Service Framework Agreement were disclosed in the circular dated 15 November 2011 and approved by the independent shareholders of the Company on 30 December 2011.

The Company announced on 20 September 2012 to propose the increase of annual caps for the service charges receivable by the Company from China Telecom Group and the service charges payable by the Company to China Telecom Group under Operation Support Services Framework Agreement for the year ended 31 December 2012 to RMB2,300 million and to RMB600 million, respectively, and the annual cap for the service charges receivable by the Company from China Telecom Group under the Supplies Procurement Services Framework Agreement for the year ended 31 December 2012 to RMB4,400 million. The reasons of the aforementioned revision of annual caps were mainly due to the rapid business development of both our Group and China Telecom Group in 2012 as well as the increasing demand of our services required from China Telecom Group along with the development of mobile Internet and proliferation of mobile terminals including smart phones. Details of above revised annual caps of connected transactions were disclosed in the circular dated 27 September 2012 and approved by the independent shareholders of the Company on 27 November 2012.

Details of the terms of the above continuing connected transactions are set out below.

The areas for strategic business cooperation between the parties shall include engineering related services in connection with our design, construction, project supervision and management businesses; maintenance and management services including but not limited to our network maintenance and facilities management; and certain business process outsourcing services such as integrated information solutions and call centres; and provision of applications, content and other services such as system integration and value-added services.

Pursuant to the Strategic Cooperation Agreement (as amended by the 2007 Supplementary Strategic Agreement), in relation to the Company's provision of engineering related services in design, construction, project supervision and management businesses, provided that our terms and conditions for the provision of the engineering related services are no less favourable than those offered by any independent third parties, China Telecom Corporation Limited has undertaken that the relevant subsidiaries (and their successors) of China Telecom Corporation Limited in the 19 provinces (municipalities and autonomous regions) shall spend an annual minimum amount of not less than 10.6% of the total annual capital expenditure of the relevant wholly-owned provincial subsidiaries (and their successors) of China Telecom Corporation Limited to purchase such services provided by the Company.
