- 207 Financial Summary

The development of 5G promotes the deep integration of the communications industry with traditional industries, social governance and public services, and brings the new demands for infrastructure and service model upgrade. Customer needs have evolved from a single product and service to the need for integrated and customized full-cycle solutions.

The Group is positioned as a “New Generation Integrated Smart Service Provider”, and as “Builder of Digital Infrastructure”, “Provider of Smart Products and Platforms”, “Service Provider of Data Production” and “Guard of Smart Operation”, its “4T” integrated capabilities will fully meet the requirements from customers on informatization and digitalization construction in the new era.
